

## Step 1: Finding your support

Often, when faced with the death of your husband, instincts tell us to close down, keep to ourselves, and to bottle everything up. And you may suddenly find yourself without the person who handled the majority of your financial decisions. These decisions are yours to make and will have an impact on the rest of your life.

Part of **The Vision Confidence Program™** is designed to assist you in building a “Dealing Team.” Your Dealing Team will be made up of family and friends who are given well-defined responsibilities and guidelines. The program will help you delegate with confidence taking a large share of the burden off your shoulders. And, it helps your caring friends and family make a substantial contribution to your well being.

### The Dealing Team Roles

1. Funeral arrangements
2. Gathering essential documents
3. Driving and other logistics
4. Domestic companion
5. Medical support
6. Spiritual support
7. Legal advice
8. Financial advice
